SEFERIADIS
LEAF SPRING FACTORY

ABOUT US

The "SEFERIADIS Brs. S.A." was established in 1983 by three brothers.

It is a family business which turns out truck springs. It is warranted and internationally recognized company which is developed continuously. In 1999, the company made a new investment and upgrade its production, both in quality and quantity. It also produces new types of springs and runs in a building of 10000 square meters. At the same time, it trades several other types of truck parts. The building and the offices are in north - eastern Greece and there are branches in Thessaloniki

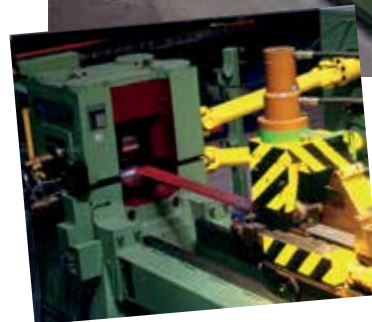

Facing the challenges of the 21st Century and dedicated to the achievement of high ends, the "SEFERIADIS Brs. S.A." does its best to remain the uncontested leader in the field of spare parts and springs.

Our plant is equipped with the latest computers controlled machines, controlled heat treatment furnaces new technology parabolic machine and eye-forming machines

All the staff of SEFERIADIS Company try continuously to seek new ideas and to acquire the latest technology. The technology procedure of the producing is executed regarding to the European standards and to the requirements of the customers.

All phases of the manufacturing process and the finished products are subjected to quality control procedures.

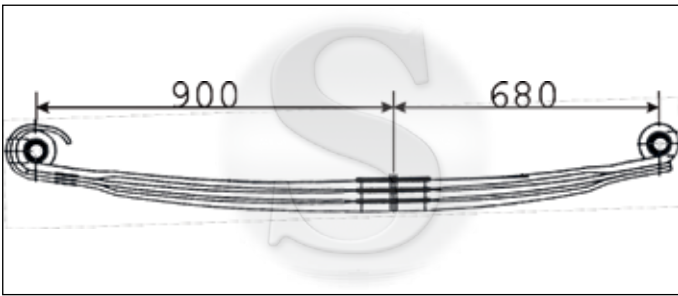

The company aims at quick delivery time and good quality or the servicing of our customers.
